Magicbus India Foundation

Oct '22 - Dec '22

Aws Certified Cloud Engineer | Pune

It validates an individual's knowledge of AWS core services, security, architecture, pricing, and billing. The certification focuses on the overall understanding of AWS Cloud, regardless of specific technical roles.

Savitribai Phule Pune University

Jun '19 - Apr '22

B.B.A (Computer Applications) | Pune

3+ years of learning in Computer Applications & Business Studies from well-known university.

PROJECTS

OLX APP-CLONE

Masai School | Bengaluru

The OLX marketplace is a platform for buying and selling services and goods such as electronics, fashion items, furniture, household goods, cars and bikes.

I developed an OLX marketplace app clone for buying and selling goods and services, such as electronics, fashion items, furniture, household goods, cars, and bikes. The app features a social login and sign-up, a user-friendly landing page, a functional search bar with advanced filters, and detailed product pages with images and descriptions. I utilized **HTML5**, **CSS3**, and **advanced JavaScript** for efficient and effective development. I worked with a team of three members and completed the project in just four days.

LIVE LARQ APP-CLONE

Masai School | Bengaluru

LARQ's approach to product innovation is driven by a single purpose - we make it easy to opt for the healthier and more sustainable hydration choice, anytime and anywhere.

I developed a live clone of the LARQ app with a user-centered approach, making it easy for users to choose a healthier and more sustainable hydration option anywhere. The app features a home page, authentication, product and technology pages, language selection, reviews, filtering, and checkout/payment. I utilized **HTML**, **CSS**, and **advanced JavaScript** to create a user-friendly interface that prioritizes user convenience and ease of use.
